

## Here's what Cobwebs customers have to say:

"For us time is usually of the essence, but so too is guaranteed delivery – whether we are sending boxes of deeds or single, signed documents. Cobwebs has never failed to provide a first-class service, sometimes delivering papers to addresses in different directions using several drivers – often at the drop of a hat. Nothing is too much trouble for them, and their prices are consistently competitive!"

"I have had the pleasure of dealing with Mr Simmons personally and I have found him to be a thoroughly professional, genuine and reliable person, he gives his word and sticks to it. Every package I have sent using his company has been collected on time and delivered well within the time limit agreed, and I have received excellent feedback from my customers, which makes me very happy as this makes my company look professional also. I also recently had a package delivered to Germany and I was extremely happy with the price I was charged and will definitely be using them as my main courier company from now on."
